REASONS FOR ALLOWANCE

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on February 20, 2002 has been entered.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: The primary reason for allowance is that the prior art of record does not disclose or suggest a method of increasing ethylene yield during conversion of oxygenates to olefins in which a small pore non-zeolitic molecular sieve is used as the catalyst in the primary reactor and in which at least a portion of the heavy hydrocarbon fraction is fed to the primary reactor. The declaration filed on February 20, 2002 shows that the process produces an unexpected increase in ethylene yield.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
